SUMMARY

Frontend Focused Software Engineer (4+ years) specializing in high-performance SaaS and Fintech platforms using React, TypeScript, Node.js, and AWS. Proven track record of architecting end-to-end production systems, from scalable backend APIs to optimized, user-centric frontends. Expert in CI/CD, cloud infrastructure, Fintech, security, Crypto and other production-grade apps.

EXPERIENCE

Fullstack Engineer

Nonceblox | <https://nonceblox.com/>

Jul 2025 - Present

Remote - UAE, Dubai

- Engineered a multi-currency payment engine (Encryptus.io) for 100+ countries, achieving a 98% transaction success rate via an intelligent routing engine with failover retries and Redis caching..
- Architected a unified error-handling system to map third-party API responses into standardized business logic, accelerating resolution times.
- Developed AI-driven HR and project tools that reduced manual administrative workload by ~80% and streamlined internal resource allocation <https://app.tara.nonceblox.com/>.
- Architected AWS ECS backend infrastructure and optimized global delivery via CloudFront/S3 to support high-traffic crypto ecosystems with 99.9% uptime.

Fullstack Developer (Frontend Focused)

Manaknight Digital | <https://manaknightdigital.com>

Dec 2023 - Jun 2025

Remote - Ontario, Canada

- Optimized performance across projects, achieving 99+ Lighthouse scores and reducing load times to ~1.5–1.9s.
- Led Development of a multi-portal SaaS ([Equality Records](#)) with (RBAC), enabling secure collaboration among teams.
- Integrated financial and payment APIs (QuickBooks, Plaid, Stripe) into [LongTermHire](#), automating reconciliation workflows and reducing manual accounting effort by ~50%.

Frontend Developer

DERA | <https://dera.money>

May 2023 - Feb 2024

Remote - Lisbon, Portugal

- Built and maintained Web3 frontend features using React/Next.js, collaborating to accelerate product delivery by ~30%.
- Delivered responsive, intuitive UIs aligned with design systems and user experience goals.

Freelance Software Developer

Freelancing

Sept 2021 - April 2023

- Developed various full-stack admin panels and SaaS platforms using Next.js/TypeScript for diverse international clients

EDUCATION

Bachelor of Science University of Ilorin • Kwara state, Nigeria .

October 2019 - November 2024

SKILLS
